

We have been awarded the Bronze Community Champions

- The Community Champions Award Scheme was created in 2016 for Solihull Council by the Engage Team.
- The scheme supports the Solihull Early Help offer which recognises that Children, Young People and Families benefit most from help at the earliest point.
- It also recognised that most local organisations want to serve their local communities and make a real difference to the lives of the people that live there.
- The Community Champions Award Scheme has been designed to provide the tools and encouragement to organisations delivering Early Help in Solihull.
- Organisations can apply for an award at one of three levels: Bronze (Ensuring a safe environment) Silver (knowing your community) Gold (sharing good practice)

To achieve the Bronze Award an organisation has to:

- demonstrate that it has the documentation and information in place for operating in a safe environment for users.
- evidence that it has an understanding of the importance of Early Help and how to access Early Help services.
